# HORIZONTAL CENTRIFUGAL PUMPS

### APPLICATIONS

Multistage centrifugal pumps extremely silent used especially for supplying water to domestic installations. Also ideal for use in small-scale agriculture and gardening.

### CONSTRUCTION FEATURES

Cast iron pump body, stainless steel disc cover and pressure disc, die-cast aluminium motor support, technopolymer impeller, diffuser, venturi tube and carbon/ceramic mechanical seal.

**Motor Protection:** IP44

**Terminal Box Protection:** IP55

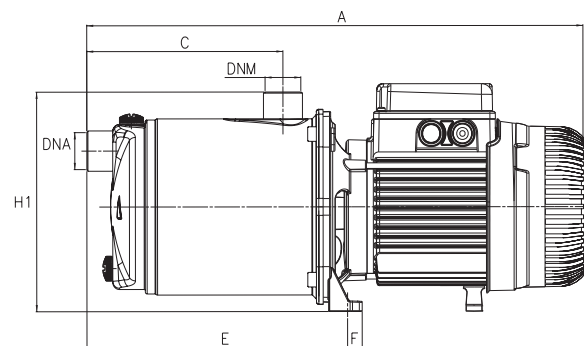

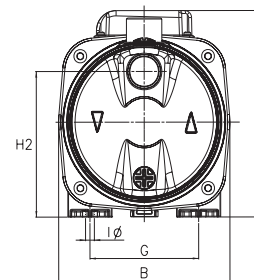

**Insulation Class:** F

**Liquid Quality Requirements:** Clean, free of solids or abrasive substances.

**Temperature:** 0°C to 40°C

**Maximum Suction Depth:** 8 metres at sea level

**Maximum Operating Pressure:** 8 bar
