

# TAFLO

**CRANE QX**

**CONSTRUCTION PUMP**

## Performance Curves

### APPLICATIONS

The Crane QX Submersible pumps are multistage high head pumps designed for dewatering in mines, construction sites and also suitable for irrigation and water transfer applications.

### CONSTRUCTION FEATURES

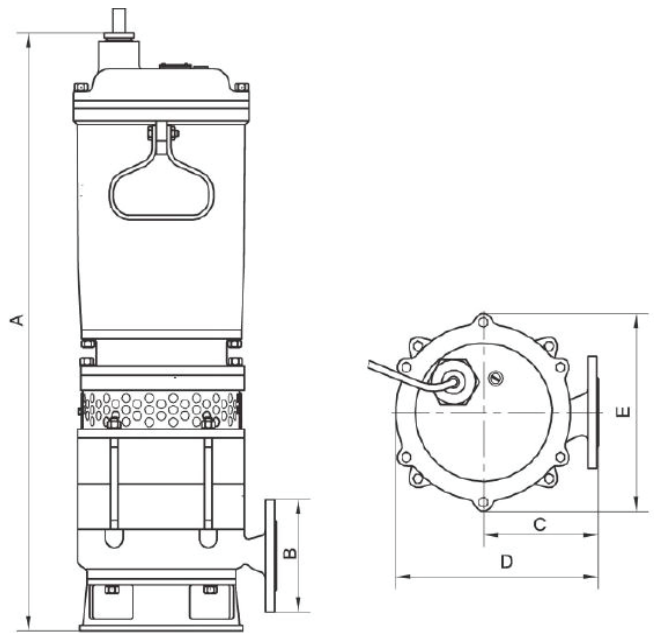

- Compact design makes it easy to install
- Heavy duty design to handle slurry and muddy water
- Fitted with lifting hooks for ease of installation

**Pumped liquid:** Slurry and muddy water containing sand

**Temp:** 0°C to 35°C

**Max. operating pressure:** 14 bar

**Max. Immersion depth:** 12 m
